

Amendments to the Drawings:

The attached sheet of drawings includes changes to Figure 7. This sheet, which includes Figure 7, replaces the original sheet including Figure 7. In Figure 7, the length of the line representing "Days Post-Implantation" is decreased to 45 days from 55 days.

Attachment: Includes a Replacement Sheet and an
Annotated Sheet Showing Changes

REMARKS/ARGUMENTS

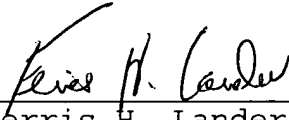

In Figure 7, the length of the line representing "Days Post-Implantation" is decreased to 45 days from 55 days. The attachment to the instant Preliminary Amendment includes a replacement sheet showing this change and an annotated sheet marking the changes made. The replacement sheet replaces the originally filed Figure 7.

No new matter is added by the change to Figure 7. The data shown in Figure 7 resulted from a study conducted over a 45 day time period and not a 55 day time period as was shown in the originally filed Figure 7. Page 23, line 20 of the instant specification indicates that treatment began 21 days post-implantation of PC-3 prostate cancer cells. Page 24, lines 2 and 3 of the instant specification indicate that the administration period of the study was discontinued at 43 days post-implantation; thus the length of the study period was closer to 45 days than 55 days.

CONCLUSION

Upon entry of the instant Preliminary Amendment, Applicants respectfully request an examination on the merits in the above-referenced application.

Respectfully submitted,

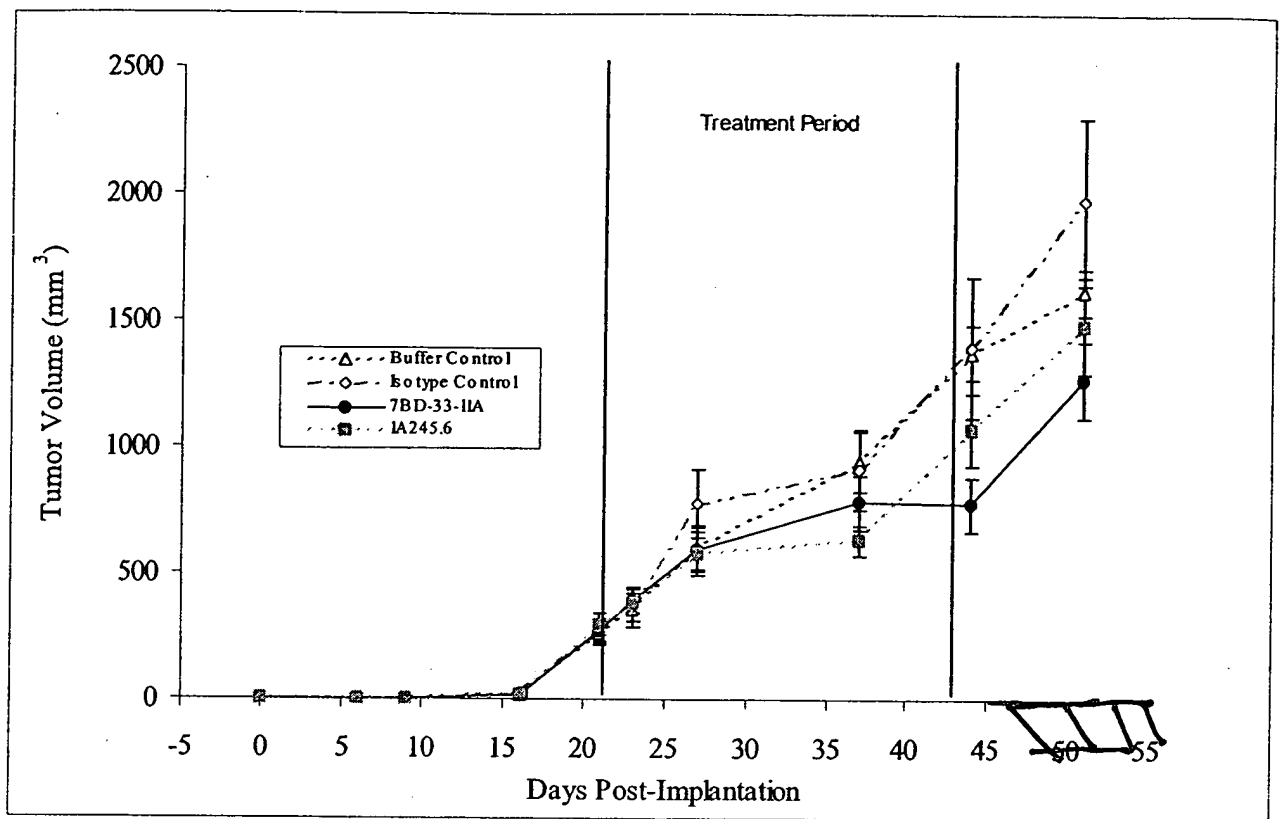

A handwritten signature in dark ink, appearing to read "Ferris H. Lander", is written over a horizontal line.
